1. What Is The Dojo?

The Dojo is Sovereign Sanctuary's adversarial and professional training environment. It provides AI-powered simulation sessions where coaches and professionals practice their skills against realistic AI personas. Each session is analyzed in real time by Little Nate, who scores responses, detects safety violations, and extracts learnings that feed back into the platform's Night School wisdom system.

Core Capabilities

> Real-Time AI Analysis

Every response is evaluated for accuracy, safety, and best-practice adherence.

> 42 Specialized Personas

From hostile therapy clients to courtroom simulations, each persona tests a specific professional skill.

> Unlimited Sessions

Dojo sessions consume zero AI tokens. Practice as much as needed.

> Assessment Generation

Generate timed practice exams with answer keys and scoring in PDF format.

> Professional Exports

PM and Business modes export Gantt charts (PDF) and structured workbooks (Excel).

> Wisdom Extraction

Strong responses and insights are auto-extracted into Night School for continuous improvement.

2. Dojo Modes Overview

The Dojo offers 7 professional training modes. Each mode contains a set of AI personas that simulate domain-specific scenarios. Coaches subscribe to one or more modes and receive volume discounts for multi-mode subscriptions.

Therapist Dojo	\$175/mo	9 personas
Crisis intervention, hostile clients, boundary testing, adversarial security.		
Project PM Dojo	\$250/mo	6 personas
Sprint planning, stakeholder conflicts, lean process optimization.		
Business Dojo	\$325/mo	6 personas
Pitch practice, financial analysis, market strategy, leadership.		
CNC Machinist Dojo	\$150/mo	6 personas
Toolpath optimization, G-code debugging, GD&T interpretation.		
MCAT Prep Dojo	\$500/mo	6 personas
Full MCAT section coverage, practice assessments, score analysis.		
Teacher Dojo	\$225/mo	8 personas
Pedagogy, classroom management, SEL, cultural competency.		
Judge Nate Dojo	\$2,100/mo	6 personas
Bar exam prep, courtroom simulation, case analysis, LexisNexis.		

3. Therapist Dojo

The Therapist Dojo trains mental health professionals in crisis intervention, boundary management, and safety protocol adherence. It also includes adversarial security personas that test the AI platform's resilience against prompt injection, resource exhaustion, and data poisoning attacks.

Personas

> Hostile Client

Simulates an aggressive, confrontational client testing de-escalation skills.

> Crisis / Suicidal Ideation

Tests crisis intervention protocols, safety resource delivery, and mandatory reporting.

> Skeptic

Questions therapy validity, challenges credentials, tests response to pushback.

> Minor (Age 12)

A child user requiring age-appropriate responses, parental consent protocols.

> Manipulative

Social engineering attempts, boundary violations, information extraction.

> Boundary Tester

Pushes professional boundaries -- personal questions, dual relationships.

> Prompt Injection

Red-team security testing of AI system defenses.

> Resource Exhaustion

Token flooding and rate limit stress testing.

> Data Poisoning

False data injection to test input validation.

Analysis Metrics

> Safety Violations

Detects missing crisis resources, boundary breaches, confidentiality failures.

> Clinical Accuracy

Scores therapeutic technique quality and evidence-based practice adherence.

> De-escalation Skill

Rates effectiveness of calming and redirecting hostile interactions.

> Wisdom Compliance

Checks responses against Night School approved therapeutic guidelines.

4. Project PM Dojo

The Project PM Dojo trains project managers in agile methodology, stakeholder management, risk assessment, and lean process optimization. Sessions can export Gantt charts and structured workbooks for real project planning.

Personas

> Sprint Planning

Facilitates sprint ceremonies -- backlog selection, capacity planning, story pointing.

> Backlog Grooming

Prioritization exercises, user story refinement, acceptance criteria writing.

> Stakeholder Conflict

Mediates competing stakeholder interests, scope management, expectation setting.

> Risk Assessment

Risk identification, probability/impact analysis, mitigation planning.

> Retrospective

Team retrospective facilitation, action item generation, improvement tracking.

> Lean / Waste

Lean process analysis, waste identification (8 wastes), value stream mapping.

Export Features

> Gantt Chart PDF

Extracts project timeline from conversation and generates a visual Gantt chart.

> Excel Workbook

Structured workbook with tasks, assignments, timelines, and dependencies.

5. Business Dojo

The Business Dojo develops entrepreneurial and executive skills. From pitch refinement to financial modeling, it covers the full spectrum of business leadership.

Personas

> Pitch Practice

Business pitch coaching with investor-style questioning and feedback.

> Financial Analysis

Financial statement interpretation, ratio analysis, forecasting.

> Market Strategy

Market entry strategy, competitive analysis, positioning.

> Client Acquisition

Sales process design, pipeline management, conversion optimization.

> Operations

Operational efficiency, supply chain, process improvement.

> Leadership

Leadership development, team dynamics, organizational culture.

Export Features

> Gantt Chart PDF

Business plan timeline visualization with milestones.

> Excel Workbook

Financial models, market analysis frameworks, and action plans.

6. CNC Machinist Dojo

The CNC Machinist Dojo trains machinists and manufacturing engineers in toolpath optimization, G-code debugging, material selection, and geometric dimensioning and tolerancing (GD&T).

Personas

> Toolpath Optimization

Feed rate, stepover, and cutting strategy optimization for various materials.

> G-Code Review

G-code debugging, syntax validation, and program optimization.

> Material Selection

Material properties, machinability ratings, cutting parameter selection.

> Fixture Setup

Workholding challenges, clamping strategies, datum reference selection.

> Tolerance Analysis

GD&T interpretation, tolerance stack-up analysis, inspection planning.

> Machine Troubleshoot

Diagnostic skills for CNC machine issues -- vibration, chatter, tool wear.

7. MCAT Prep Dojo

The MCAT Prep Dojo provides comprehensive medical school entrance exam preparation across all four MCAT sections. Features timed practice assessments with scoring and score trajectory analysis.

Personas

> **Biology / Biochemistry**

Section 1 content -- molecular biology, genetics, metabolism, organ systems.

> **Chemistry / Physics**

Section 2 content -- general chemistry, organic chemistry, physics.

> **Psychology / Sociology**

Section 3 content -- behavioral sciences, social determinants of health.

> **CARS Passage**

Critical Analysis and Reasoning Skills -- reading comprehension, argument analysis.

> **Full Assessment**

Timed full-length practice exams across all sections.

> **Score Analysis**

Score trajectory tracking, weakness identification, study plan optimization.

Assessment Features

> **PDF Exam Generation**

Generates timed practice exams with configurable question count and focus areas.

> **Auto-Scoring**

Upload completed exams for AI-powered scoring and detailed feedback.

> **Score History**

Track progress over time with historical score visualization.

8. Teacher Dojo

The Teacher Dojo develops K-12 educators across pedagogy, classroom management, social-emotional learning, and culturally responsive teaching practices.

Personas

> Content Mastery

Multi-disciplinary knowledge assessment across grade levels and subjects.

> Pedagogy

Curriculum design, differentiated instruction, learning objectives.

> Classroom Management

Behavior management strategies, de-escalation, positive reinforcement.

> Social-Emotional Learning

SEL integration, emotional regulation support, trauma-informed practices.

> Interdisciplinary

Cross-curricular connections, project-based learning design.

> Tech & AI Integration

Educational technology, AI tools for instruction, digital literacy.

> Communication

Parent/guardian conferences, colleague collaboration, IEP meetings.

> Cultural Competency

Inclusive teaching, cultural responsiveness, equity-centered practices.

9. Judge Nate Dojo

The Judge Nate Dojo is the premium tier of The Dojo, providing comprehensive legal training for bar exam preparation, courtroom simulation, and case analysis. It includes LexisNexis integration for real case law research and a student mentoring system with admin-verified access.

Personas

> Bar Exam Prep

Uniform Bar Exam preparation with MBE, MEE, and MPT question formats.

> Case Analysis

Case law analysis, precedent identification, distinguishing holdings from dicta.

> Courtroom Simulation

Full courtroom scenarios -- direct/cross examination, objections, motions.

> Judicial Reasoning

Legal reasoning frameworks, constitutional interpretation, statutory analysis.

> Oral Argument

Appellate oral argument practice with bench questioning simulation.

> Ethics & Compliance

Legal ethics (MPRE), professional responsibility, conflicts of interest.

Exclusive Features

> LexisNexis Integration

Search real case law, statutes, and regulations during sessions via OAuth 2.0 API.

> Case Document Upload

Upload PDF case documents for AI reference during training sessions. Supports civil, criminal, appellate, and constitutional case types.

> Student Verification

Coaches submit student verification requests reviewed by admin. Approved students receive a Judge Nate Bar ID (JNBAR-XXXXXX) for tracked access.

> Debate Portal

Coach-vs-coach debate sessions with AI moderation and scoring.

> Bar ID System

Each verified participant receives a unique Bar ID for progress tracking across sessions.

10. Subscription & Pricing

Each Dojo mode operates on a 12-month subscription term with auto-renewal. Coaches can subscribe to multiple modes and receive volume discounts. Cancelled subscriptions retain access until the end of the current billing term.

Monthly Pricing

Therapist Dojo	\$175
CNC Machinist Dojo	\$150
Teacher Dojo	\$225
Project PM Dojo	\$250
Business Dojo	\$325
MCAT Prep Dojo	\$500
Judge Nate Dojo	\$2,100

Multi-Dojo Volume Discounts

Subscribe to multiple Dojo modes and receive automatic discounts on all non-Judge subscriptions. The Judge Nate Dojo is always billed at full price (\$2,100/mo) regardless of bundle size.

1 Dojo	Standard price
2 Dojos	10% discount
3 Dojos	15% discount
4 Dojos	20% discount
5 Dojos	25% discount
6 Dojos	30% discount

Subscription Terms

> Term Length

12 months with auto-renewal at the then-current rate.

> Cancellation

Cancel anytime. Access continues until the term end date.

> Discount Recalculation

Adding or removing modes automatically recalculates discounts for all active subscriptions.

11. Assessments & Exports

The Dojo includes a comprehensive assessment system for generating practice exams and professional exports.

Assessment System

> Preview Assessment

Preview question sets before generating a full PDF exam.

> Generate PDF Exam

Create mode-specific assessments with configurable difficulty, focus areas, and question count.

> Answer Key Generation

Each assessment includes a separate answer key PDF for self-grading.

> AI-Powered Scoring

Upload completed assessments for AI text extraction and automated scoring.

> Assessment History

Track all completed assessments with scores and timestamps per mode.

Professional Exports (PM & Business)

> Gantt Chart (PDF)

Analyzes conversation content and extracts a project timeline into a visual Gantt chart.

> Excel Workbook

Generates a structured workbook with tasks, owners, deadlines, dependencies, and status columns.

Case Documents (Judge Only)

> PDF Case Upload

Upload legal case documents in PDF format. AI extracts text for reference during sessions.

> Case Management

Browse, search, and manage uploaded cases organized by type: civil, criminal, appellate, constitutional.

> LexisNexis Search

Search live case law and statutes via integrated LexisNexis API during Judge Dojo sessions.

12. Night School Integration

The Dojo and Night School operate as a feedback loop. Night School provides the approved wisdom and guidelines that the Dojo uses to analyze responses. Strong Dojo performances generate new wisdom entries that flow back into Night School.

Night School -> Dojo

> Wisdom-Informed Analysis

Dojo analysis references approved Night School wisdom entries when scoring responses.

> Violation Detection

Identifies when responses contradict approved therapeutic guidelines or best practices.

Dojo -> Night School

> Auto-Learning Extraction

After each session, strong responses and novel insights are extracted as candidate wisdom entries.

> Tagged Entries

Extracted learnings are tagged with the Dojo mode, persona, and 'auto_learned' or 'positive_example'.

> Coach Approval Flow

Extracted entries go through the standard Night School approval pipeline before becoming active wisdom.

13. Security & Adversarial Testing

The Therapist Dojo includes three adversarial security personas designed to test the AI platform's resilience against common attack vectors. These are red-team tools for platform security validation.

Adversarial Personas

> Prompt Injection

Tests system prompt boundary enforcement. Simulates attempts to override AI instructions, extract system prompts, or make the AI behave outside its guidelines.

> Resource Exhaustion

Stress-tests token limits and rate limiters. Simulates flooding attacks designed to exhaust API quotas or crash the system through excessive requests.

> Data Poisoning

Tests input validation and data integrity. Simulates injection of false or malicious data designed to corrupt the AI's knowledge base or decision-making.

Session Security

> Zero Token Cost

All Dojo sessions are marked as simulations and consume zero AI tokens from the coach's balance.

> Analytics Isolation

Dojo activity is excluded from engagement analytics to keep real usage metrics clean.

> Simulation Tagging

Every Dojo message is prefixed with [DOJO SIMULATION - MODE / PERSONA] to prevent confusion with real client interactions.

> Session Logging

All sessions are logged to isolated files (dojo_{session_id}.json) for audit trail and review.
